

Reverse Plait Cable Napkin Ring

By MakerKnit.com

This is the second napkin ring that I designed for what became a “sampler” set of six napkin rings.

I chose the reverse plait cable because it’s one of my favorite stitch patterns—I love the undulating lines it produces and think it’s such an elegant cable. Like the other patterns I chose for the sampler set, I thought the reverse plait cable would be an attractive complement to the napkins I fancied, which were quite colorful and had both writing and figures on them (see top photo).

If you use Lorna’s Laces Green Line DK, as I did, you can make six napkin rings from just one hank—a beautiful bargain!

NOTES

The beginning five stitches and ending five stitches (in Rev St st) form the napkin ring's interior. If you don't want to use inserts, visit MakerKnit.com and search "napkin ring" for suggestions on changing the pattern and for other finishing alternatives.

The stated gauge will produce a knitted tube that fits around 44 mm inserts, with the finished napkin ring being about 1.5" high and 7.25" around. So unless you choose to use similar inserts or want your napkin rings to be exactly that size, gauge is not critical.

To use the long-tail CO method, leave yourself a 12" tail when making your slipknot. Note that this pattern is knitted flat and then seamed to form a ring.

INSTRUCTIONS

CO 19 sts.

Row 1 (RS): p5, k9, p5.

Rows 2, 4, 6, and 8: k5, p9, k5.
